Description of Property and Justification: *(Please attach map and photo)*

This two bay over three frame dwelling illustrates the wave of home building that occurred in Frederick County in the late 19th century. Located on a portion of what was the land tract called Frederick's Contentment, this two story structure with a Victorian period cross gable with gothic window stands to the west of Boyers Mill Road. The two bay brick veneered addition to the house appears to be of recent vintage but the original structure seems to be relatively unchanged. The older part of the house faces east with a three bay first story configuration, and walls covered with vinyl siding. The main entrance is in the central bay and the front is sheltered by a hip-roofed one story porch with turned posts, brackets and a balustrade. The roof is covered with channel drain sheet metal. The house appears to date from the last quarter of the 19th century.

Although the house has been altered by the application of modern surface treatments and the addition, it retains distinctive architectural features such as the late Victorian Gothic inspired cross gable and the fancy front porch. The house therefore meets National Register criterion C. The entire parcel of the property is recommended.
